The Combined Tactical Systems Tactical Grenade Aerosol Defense Fogger is a unique OC product for duty patrol, corrections, and tactical teams. Delivering a fog with an instantantaneous actuator, the model 1337 is an option for area denial, barricaded subjects, and crowd control using multiple units. Similar to the Level 3 OC, the Tactical Aerosol Defense Grenade delivers approximately 1.33 major capsaicinoid concentration for maximum coverage and efficiency. Available in live OC Model 1337, and Inert Model 1307.
