

MODEL No.	DESCRIPTION:
2553	12GA .31Cal High Velocity Sting-Balls
	Revision C 9/18

NOT TO SCALE

PHYSICAL & OPERATIONAL	
Type	Crowd Dispersal Impact Munition
Caliber	12 GA
Weapon Compatibility	Cylinder Bore, 18" Barrel Minimum
Cartridge Length	2.4" (60.9 mm)
Effective Range*	40' (12 M)
Overall Weight	18 gm
Projectile Material	Rubber
Velocity	850-950 ft./sec
Warranty	5 Years from Shipment Date
<p>All specifications are average and are subject to change without notice.            All performance specifications are based on testing conducted in Jamestown, PA USA,            At an elevation of 1,058 feet above sea level at ambient temperature conditions.</p>	

**WARNING:** CSI manufactures a variety of CTS less lethal products which are under pressure, pyrotechnic, incendiary, emit projectiles, generate smoke, or are explosive in nature. When used in accordance with CTS training guidelines and the individual agency's policy, they are intended to cause varying degrees of pain and injury, which are temporary. These products are restricted to law enforcement, corrections, and military personnel and are used to gain compliance, disperse crowds, restore order, or temporarily incapacitate dangerous persons. In rare circumstances, if used incorrectly, CTS less-lethal products may cause damage to property, serious bodily injury or death. Therefore, any person using the force option depicted on this page should receive proper training to ensure the safest and most effective use.

SHIPPING INFORMATION	
Proper Shipping Name	Cartridges for Weapons, Inert Projectile
UN Number	0012
Hazard Class	1.4 S
Labels Required	Explosive 1.4S
Quantity Per Package	5 Cartridges in Plastic Bag
Total Package Weight	18lb. (400 Cartridges)
Package Type	Fiberboard Box
Package Dimensions	17x11x 6
Net Explosive Weight	.50gm per unit

\*The 2553 Sting-Ball launches multiple rubber projectiles (on the average 18) to affect a general area. The shot pattern of the projectiles will increase over distance. General accuracy and effectiveness is relative to the shotgun, barrel length, environmental conditions, the operator, distance, thickness of clothing, and the stature of the human target.

**CAUTION:** Dispersion of the projectiles creates a greater risk of eye injury, and requires the operator to target a low point of impact, below the belt line, on human targets.
