

MODEL No.	DESCRIPTION:
4557HV	40MM Sponge, Smokeless, Spin Stabilized, High Velocity
	Revision F 5/21

NOT TO SCALE

PHYSICAL & OPERATIONAL	
Type	Point Control Impact Munitions
Caliber	40MM
Weapon Compatibility	All 40MM Launchers, M203, M79 and Multi-Launcher Type
Cartridge Length	3.9" (99.0 mm)
Effective Range*	60 YD (55 M, Read Standoff Caution)
Projectile Weight	60 gm
Projectile Material	Closed Cell Neoprene
Overall Weight	105 gm
Velocity	330-345 ft./sec
Warranty	5 Years from Shipment Date
<p>All specifications are average and are subject to change without notice. All performance specifications are based on testing conducted in Jamestown, PA USA, At an elevation of 1,058 feet above sea level at ambient temperature conditions.</p>	

WARNING: CSI manufactures a variety of CTS less lethal products which are under pressure, pyrotechnic, incendiary, emit projectiles, generate smoke, or are explosive in nature. When used in accordance with CTS training guidelines and the individual agency's policy, they are intended to cause varying degrees of pain and injury, which are temporary. These products are restricted to law enforcement, corrections, and military personnel and are used to gain compliance, disperse crowds, restore order, or temporarily incapacitate dangerous persons. In rare circumstances, if used incorrectly, CTS less-lethal products may cause damage to property, serious bodily injury or death. Therefore, any person using the force option depicted on this page should receive proper training to ensure the safest and most effective use.

SHIPPING INFORMATION	
Proper Shipping Name	Inert Projectile
UN Number	0339
Hazard Class	1.4C
Labels Required	Explosive 1.4C
Quantity Per Package	96 Cartridges
Total Package Weight	35 lb.
Package Type	Metal Drum with Lever Lock Lid UN1A2/Y36/S
Package Dimensions	19 x 12 (7 gal. drum) also used for overnight packages

*The Model 4557HV Sponge Baton is a spin-stabilized projectile for extended range engagements. The minimum standoff distance for an engagement is 20 feet (6 meters). Although it is extremely accurate and consistent, accuracy is dependent on the launcher, using open sights vs. an improved sight, environmental conditions, and the operator. Effectiveness depends on many variables, such as distance, clothing, stature, and the point where the projectile impacts.

CAUTION: Unless deadly force is justified, do not engage a person inside of the 20 foot (6 meters) minimum standoff distance. Shots to the head, neck, thorax, heart, or spine can result in fatal or serious injury.
